New instructions for international transport drivers that are returning from Serbia or BiH to SLO over weekend by a car. Besides usual documentation, it is now necessary to have a statement containing data on the company, driver, day and hour of departure, plate number and direction where the next tour out of SLO is headed. It is important that from the moment of entry in SLO till the moment of exiting SLO there is no more than 6 hours.

Due to the rise in COVID 19 cases and seeing how all of them are imported cases, SLO has, as of June 19, reintroduced a mandatory 14-day quarantine for all arrivals, regardless of residence status in SLO or nationality. This does not entail hauliers in the international transport, who have on them a driving Permit for international transport.

As of 30.08.2020, Serbia is on the "yellow" list of Covid-19 countries, so the 14-day quarantine has been lifted for the SLO citizens when returning to the country from Serbia.
